Transition from primary to secondary school

Maesydderwen Cluster

2024-25

Background

Governing bodies of secondary schools and their feeder primary schools are required to jointly draw up a transition plan to support transition of learners from Year 6 to Year 7 in line with Curriculum for Wales framework. Currently legal requirements for transition from primary to secondary school are set out in the new [2022 Transition Regulations](#) came into force 1 July 2022. Transition plans must be in place and operational from the beginning of each academic year. Plans must be **reviewed annually**.

Purpose

The aim of the following transition plan is to support and improve links between our cluster of schools with a specific focus on working collaboratively to:

- enable learners to realise the 4 purposes
- develop a shared understanding of progression at a cluster level ensures that learners' experiences are connected, authentic and relevant. This in turn will support practitioners to identify how sequencing in learning can enable progress.
- ensure coherence across the cluster to support equity, well-being and the overall needs of all learners
- ensure a smooth transition where practitioners communicate and understand what and how learners have been learning and identify next steps in learning to support their education and well-being.
- ensure appropriate pace and challenge in a school's approach to progression when developing their curriculum and assessment arrangements. Developing a shared understanding enables practitioners across the cluster to explore whether their expectations for learners are sufficiently challenging and realistic and whether any support is required by individuals.

This transition plan has been divided into 4 sections

1. Managing and co-ordinating the transition process
2. Securing continuity of learning and developing a shared understanding of progression
3. Ensuring individual learner's progression **and** ensuring that learning needs and the well-being of each individual learner will be supported as they transition from primary school to secondary school
4. Proposals for reviewing and monitoring the impact of the transition

Review of transition plans
